The new formula for fun.

Not only Football Tables, Garlando is also Sport and Leisure

Since 1954 **Garlando** has been manufacturing and marketing articles for sport and leisure, characterized by **Made in Italy**  quality production and design, which won the company registered patents and safety certifications.

The traditional hits, produced by a particular synergy between handcraft and technologies, comprises the creations that made the company history: football tables, pool tables, table tennis tables and air hockeys.

More recently, thanks to an experience of several decades, Garlando has been building a significant presence in the sport and outdoor games field, both by expanding its offer (to include trampolines, basketboards, soccer goals and swings) and by acquiring the sole agency of worldwide famous trade marks.

The **Stiga** range – the Swedish company is the number one in the production of tennis table bats – features not only tennis tables and accessories, but also equipments for the badminton and the minitennis, table games (football and hockey), scooters, snowracers and sledges.

Following the agreement with the German multinational corporation **Kettler**, Garlando gains the opportunity of successfully working in the home fitness sector, also emphasizing its presence in the distribution of open air structures for children (swings and slides) and wheeled games.

The cooperation with **Hapro**, the Dutch manufacturer for sunbeds, satisfies the requirements of a public that makes wellness a priority and that is after the best to obtain it.

In 2010, Garlando introduces its own darts range with the new brand **Equinox**, while contemporaneously beginning to represent the prestigious English world leader **Unicorn**.

Aiming to furtherly expand its horizon, in 2014 Garlando negotiates a distribution agreement with Bresser, for the sole agency for Italy of astronomy, optics and outdoor items by **National Geographic**, a brand known worldwide for the amazing beauty of its images reproducing nature in every corner of the world.

Boxes bags, gloves and punching balls are the new products by Garlando 2014-2015 which has started to market a line with its own brand, colourful, fun and of quality for children, teens and adults.

Goes on the agreement which brought the distribution of the US brand **SPHINX U.S.A.**, for 40 years a recognized leader worldwide in the protections for combat sports and technical clothing Performance.

The **Nextreme** range of wheel games expands to meet up the positive outcome obtained. The novelties include high quality skateboards, longboards and innovating roller-skates that can be turned into roller-blades. In addition we offer the hoverboard, the object of desire for adults and kids.

In our country, the network of sales representatives set up a widespread product diffusion over all the national territory, where the current stores are now more than 500. Products cover all the price points of the market.

Abroad, they are sold by 68 Dealers in 44 countries (all continents are represented). Besides, our Company Sales Dept has a stand at the main international exhibitions.

Garlando mission to satisfy customers has created an efficient post-sales service managed by a qualified staff. Spare parts are in stock and shipped on time to allow the customer to restore the complete functionality of the product.

Football tables

F-200

The home line entry level combines a sturdy construction with the elegance of the maple-wood coating.

USE	HANDLES	PLAYFIELD	REMARKS	WEIGHT	SIZE	WARRANTY	COMPLIANCES
